Indra Gunawan is an Associate Professor in Complex Project Management in the Entrepreneurship, Commercialisation and Innovation Centre (ECIC) at The University of Adelaide, Australia. He received his PhD in Industrial Engineering and MSc in Construction Management from Northeastern University, USA. Prior to joining the University of Adelaide, he was a program coordinator for Maintenance and Reliability Engineering at Monash University, Australia. Previously he has also taught in the Department of Mechanical and Manufacturing Engineering at Auckland University of Technology, New Zealand and worked as the Head of Systems Engineering and Management program at Malaysia University of Science and Technology (in collaboration with the MIT, USA).

His current research interests include system reliability modelling, maintenance optimisation, project management, applications of operations research, and operations management. He actively involved in the Asset Management Council, a technical society of Engineers Australia.
